PREMIER SUPPLIER OF
EQUINE DENTAL EQUIPMENT

Autumn 2026

Introducing the
NEW DYNAMIC PRO
water cooling system

Water cooling
handpieces are
compatible with all
DYNAMIC motors,
drive cables and
Aqua Flushers

Dynamic Dental Equipment available from a growing
team of Distributors and Service Centres worldwide

Finally, a water cooling system that actually works.

- ✦ Simple to set up and operate.
- ✦ Compatible with Dynamic belted and hanging motors.
- ✦ Can be retro-fitted to all Dynamic drive cables.
- ✦ Use with the water back pack or Aqua Flusher.

Reduces clogging of burrs

Water Cooling
Back Pack - £495

Straight Medium - £1,550
Straight Long - £1,650
Curved Long - £1,695

DYNAMIC Sectioning

Targeted cooling for sectioning, coronectomies, and diastema widening.

Straight Medium - £1,550
Straight Long - £1,650
Curved Long - £1,695

Burrs not included

DYNAMIC Water Cooling Sectioning Handpiece & Burrs

Slim, low profile heads for better visibility and manoeuvrability

- ✦ Sectioning is demanding work.
- ✦ The burrs need increased support from the head bearings, yet the head must be very low profile for manoeuvrability and visibility.
- ✦ The new DYNAMIC sectioning handpiece delivers both. Built for durability, with targeted water cooling to reduce thermal heat and dust.
- ✦ Use with our range of precision burrs, developed for sectioning, coronectomies, and diastema widening, available in a range of lengths and styles.

See our website for the full range of burrs.

Contents: Tap M6, Trocar sharp long, Trocar sharp short, Trocar round long, Trocar round short, Drill sleeve short serrated, Drill sleeve long serrated, Fragment forcep with spring handle, Elevator for root tips slim, Elevator sharp spoon, Elevator symmetric, Elevator asymmetric, Threaded pin (screw) M6, Autoclave sterilisation container with silicone mat, Metal slotted hammer, Drill 32mm, Drill 5 mm, x 200mm, Intraoral screws 6mm, Tap M4, Tap M7, Threaded pin (screw) M4, Threaded pin (screw) M7

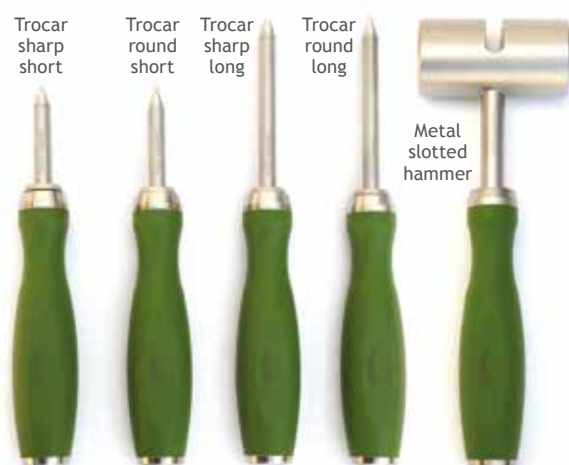

Use with

Gunther Speculum - £545

Nine offset positions.
Screw handle opening mechanism. Easy to clean Biothane straps.
Rubber bite plates.

Screw handle opening mechanism

All components are available separately - see website for details

DYNAMIC PRO - Duck Bill Forceps - £375

Works well with Buccotomy Kit

Also available

Low/High Speed Burrs

Lindemann, Caries cylindrical and ball shaped burrs in a variety of lengths and diameters. Low speed to fit contra angle handpiece. High speed and latch type for turbine and contra angle handpiece with chuck.

See website for prices

Fully Autoclavable Tins (small or large) to store Hedstrom files.

Paper Points, various sizes.

Hedstrom Files

Highly flexible. Full range of lengths and diameters.

Also available with Latch type connection for Endodontic handpiece.

Titanium Implants to close non healing oro-nasal and oro-sinuidal fistulae

11

After cleaning and surgical preparation the threaded titanium implants (Fistula Plugs by Stoll) can be inserted with a Torx screw driver, placed through a transbuccal approach and transbuccal cannula.

Afterwards a T10 Torx screw is placed into the Titanium implant to minimize the hole of the T30 Torx approach.

All items available individually

Fistula Plugs by Stoll

Titanium Implants, Fistula Plugs, Oss synthetic bone plugs and Cystblox® Membrane
See our website for size options and prices.

Made in Germany

Design patented!
(registered design)

NEW

Extended Applicator for Resin - £400

Simplifies the process of obturation and filling infundibula, pulp canals, periodontal diastemas and diastemas. Comes with three adaptors

NEW

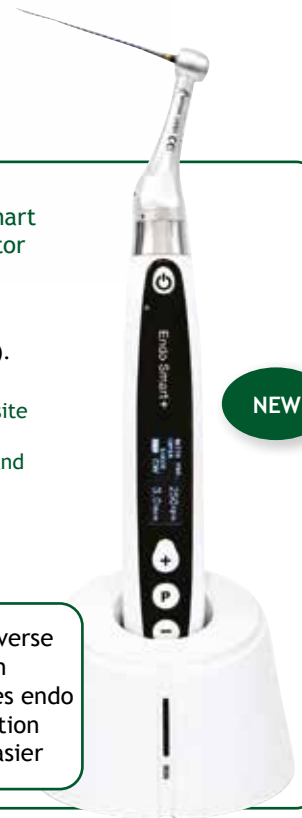

Endodontic Tooth Model - £87 each

Realistic, translucent tooth with soft pulp for hands-on practice and demonstration. Options: mandibular cheek, mandibular incisor, maxillary cheek or, maxillary incisor.

Endo Smart Plus Motor
Use with rotation files (not included).

See website for size options and prices.

Auto Reverse Function simplifies endo preparation much easier

NEW

MIR Kit - £395

For minimally invasive repulsion of dental fragments or fractured teeth. For use by vet surgeons in conjunction with careful radiographic positioning through a small trephine or drill hole. Six pins. Each has a block end that slots into the hammer to aid removal should the pin become lodged in an incorrect position.

Replacement pins available.

Developed in conjunction with Chris Pearce MRCVS from Equine Dental Clinic

Available with short (20cm) or long (25cm) length pins - £55 each

Universal Dental Hammer - £95

Included in the MIR Kits, but also available separately. Works well with set of 6 elevators and set of 4 wolf teeth elevators. 20cm.

Premium Pony Floats - £125

Designed for small equines. Stainless steel float handles with rubber handles and low profile heads that take 50mm stick on blades. Clearly numbered for easy recognition.

P-1 17cm 20° Premolar

P-2 23cm Straight, Lingual and Buccal

P-3 23cm 5° Downturn, Lower Arcade

P-4 28cm 15° Upturned, Back Molar

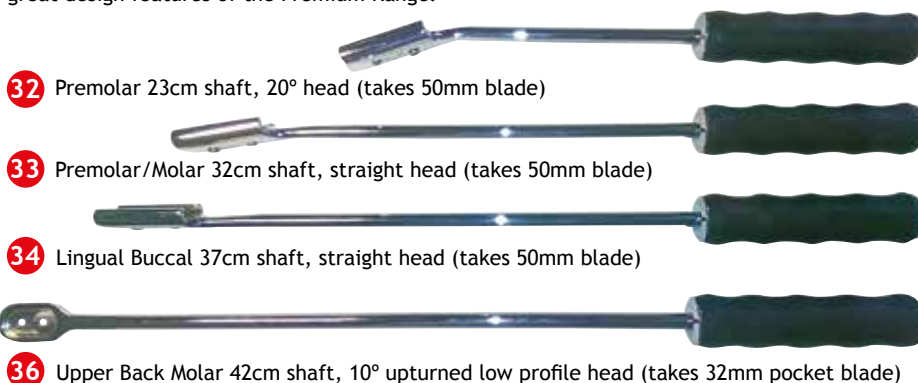

Can be sold as a kit (does not include blades)

Premium-Light Float Handles excluding blades £125

The shorter handle and thinner shaft makes our new range of floats lighter to use. The range still has the great design features of the Premium Range.
